Dear Mr. El-Zein:

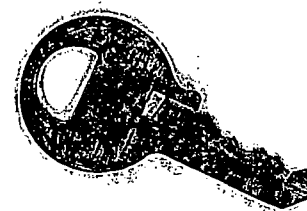

Enclosed, please find the copies of the keys to the Albion-Sheridan Twp. Landfill site. The gold key marked "N/SE" fits the lock to the north (Michigan Ave. ) gate and also fits the lock on the east side of the south fenceline. The silver key fits the lock on the west side along the south fenceline (leading toward the pumphouse).

Also enclosed is a copy of the sampling done at the AST site drums and compatibility results as performed by Great Lakes Environmental Services, Inc.

If an updated access agreement was obtained for the southern portion of the property, please send a copy to me for our files.

Sincerely,

*Ann Benda*
